

PNEUMANITY™

BREATHWORK FOUNDATION COURSE

CAPE TOWN | 16 – 18 AUGUST 2024

ABOUT THE COURSE

This thoughtfully created 3-day in-person course is a fascinating exploration of the art and science of breathwork. It grounds the mystery, shines light on the medicine, and connects the threads between science, spirituality, psychology, and health.

It is information rich and inspiring distilling the latest advances in the rapidly evolving field of breathwork, making it accessible to anyone, practical and simple to apply.

It is based on the [Pneumanity](#) philosophy- a full spectrum approach to conscious breathing inspired by African Indigenous Wisdom and universal principles.

By its very nature, the course offers the opportunity for a personally transformative journey and can be a powerful catalyst for change.

PNEUMANITY™ BREATHWORK

WHAT ARE THE 7 THREADS?

SANKOFA

Breath is the thread between remembering and imagining.

SAFETY

Through our breath, we experience safety, the environment that supports the natural healing process.

EMBODIMENT

We acknowledge and support the wisdom of the body as an expression of and vehicle for breath.

WHOLENESS

We relate to our healing from our natural state of wholeness versus from a place of lack or pathology.

UBUNTU

This universal truth celebrates the interconnectedness of all of life and the breath as embodied Ubuntu.

CREATIVITY

Conscious breathing transforms an unconscious function into a creative force, supporting our capacity for growth and change.

THE MYSTERY

Breath is the thread between the known and the unknowable.

The 7 threads of Pneumanity are the guiding principles that support the integrity of our work as 'Pneumanitarians', the practitioners and members of the Breathwork Africa Community. They are universal principles of breath and consciousness, many of which are found within the Indigenous Wisdom Traditions of Africa.

These 7 threads are woven through our training both in terms of philosophy and practical application. We commit to breathing and embodying these principles into our own life in order that we may hold them for others.

WHAT PEOPLE ARE SAYING ABOUT THE COURSE

“This weekend has been nothing but magical for me. From the most beautifully open, sacred and safe space that was held by the facilitators; to the eye-opening knowledge, which was shared with us so very generously. Filled with light, love and gratitude, I connected to my own pure energy, abundant truth and to so many meanings in this physical reality including collective healing and the mystery of breath; which has allowed me to connect with a more expansive experience of my birthright of freedom.” – Farida

“Thank you for the incredible opportunity to be part of the Breathwork Foundation Course journey this past weekend, words cannot express the honour and gratitude I feel. The only way I know is to share the power of breath and Breathwork Africa with as many people as possible and I know that the path will unfold as it should.

Thank you to the facilitators for pouring your hearts and soul into the work that you do and holding space for us on this journey. It is seen, felt and greatly appreciated.” - Ncamie

“Thank you so much for this wonderful foundation course. It was really enjoyable and informative. I really appreciated the amount of work that went into it and took so much more away from it than I expected. The aspects covered were so well thought out and really did provide for an embodied experience that I wasn't quite expecting.

With great appreciation and gratitude.” - Claire

YOUR COURSE FACILITATORS

Audrey Redmond, Facilitator

Audrey is a Physiotherapist, Certified Breathwork Practitioner and Trainer who uses her background in Physiotherapy, Pilates and Somatics to facilitate re-connection through different breathwork practices.

She believes that embodying our breath is the start of our journey to conscious living and utilising life force that offers healing and growth.

Dr Sara Matchett, Facilitator

Dr Sara Matchett is an Associate Professor at UCT's Centre for Theatre, Dance & Performance Studies. Her interests are in embodied practices that focus on presencing, co-sensing, collaborating, and co-generating as a way of transforming 'ego-systems' to 'ecosystems'. Her practice is premised on the understanding that all living beings, both human and other-than-human, are connected by breath.

The engagement of conscious breathing enables clients to experience the inter and intra-connectedness of all things and enhances a profound understanding of breath and how it can support emotional regulation and self-knowledge.
